Kelly – Each document looks ok. On the wildfire document. At the end it is mentioned that the work will be of interest to the US Fire Service and the DOI. I believe it's the US Forest Service. They're very informative. Thanks, Wayne

Wayne,

Please hold off reviewing the version that Sam sent. Christina and I will consolidate and provide an updated version for your review so you only have to view once.

Thanks,

Yes, we have made a pass at the document and have some content questions for Samantha Linkins before "finalizing" our edits.

I believe Dahnish is going to give you access to our shared version today.

Hi Kris!

Knowing your team, you're probably moving and shaking on this action item. Before sending to Samantha Linkins, would you mind sending to Kelly with me CC'd for review/awareness? She and I are going to touch base early next week to come up with a plan to get these done efficiently for the Center.

Thanks,

Christina

Subject: Review: 2020 Transition Documents, IRIS and Wildfires

Hi CPHEA friends,

ORD has been asked to develop a few high-level briefers for the 2020 Transition on hot topics that incoming political staff will need to know about after the election (note: this can either be people from a new administration, or new staff serving the existing administration as there is often high turnover at the start of a second term).

I've developed a briefers on our wildfires work and on IRIS – all of the language in there you have seen before. Would you mind taking a look at the attached documents, review for accuracy, and add anything you think is missing? The template (required by OPM) for these briefers can be infuriating, but don't worry about that – I'll deal with formatting later.

If you could get back to me by next Wednesday, September 30, I'd greatly appreciate it! Note that after you review, these will go up to Jennifer and David for review, then over to the Administrator's Office for final reviews. Let me know if you have any questions or if I can help with editing.

Thanks,
Sam
